

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Trade name: **GOODYEAR SCREEN WASH -2C**  
Summer windshield washing fluid

UFI: Not applicable. Considering the mixture's effect on health and its physical hazards, the mixture is not classified as dangerous, and in accordance with Article 45 of the CLP (1272/2008) Regulation and Annex VIII, 3.1. point, it does not need to be reported to the toxicology center of the European Chemicals Agency (ECHA).

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: For automotive and industrial use.  
For consumer/professional use.

Uses advised against: Do not use for food.

#### 1.3. Details of the supplier of the safety data sheet

Manufacturer in the EU (supplier of the safety data sheet): **CHEMISPEC Ltd.**  
Legal address: Robezu 7, Ventspils, LV-3601, Latvia  
Manufacturing address: Straumes 14, Tukums, LV-3104, Latvia.  
Phone: +371 29473720  
WEB page: <https://chemispec.com/>  
E-mail of the competent person responsible for safety data sheets: ops@chemispec.com

#### 1.4. Emergency telephone number

EU:112  
Emergency telephone for other regions to be filled out by local business.

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Product definition: Mixture

Classification according to regulation (EC) No 1272/2008:

**Not classified.**

#### 2.2. Label elements

According to regulation (EC) No 1272/2008:

Pictograms:	Not applicable.
Signal word:	Not applicable.
Hazard statements:	EUH210 Safety data sheet available on request.
Hazardous substances:	Not applicable.
Precautionary statements:	P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P501 Dispose of contents/container to in accordance with local/national regulation.
Supplemental label elements:	Not applicable.

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

Declaration of ingredients of detergents in accordance with Regulation (EC) No. 648/2004 (on detergents):

Contain: perfumes.

### **Annex XVII – restrictions on production, placing on the market and use of certain hazardous substances, mixtures and products**

None.

#### **Specific requirements for retail packaging:**

**Child-resistant packaging:** Not applicable.

**Tactile hazard warning symbol (Δ)** Not applicable.

#### **Labeling exemptions for packaging <125 ml:**

Not applicable.

### **2.3. Other hazards**

#### **2.3.1. Other hazards not related to classification**

There are no such known.

#### **2.3.2. Information on PBT and vPvB substances**

The product does not meet the PBT and vPvB criteria according to Annex XIII of the REACH Regulation (Regulation (EC) No. 1907/2006).

#### **2.3.3. Endocrine disrupting properties**

Toxicological/ecological information: Based on the available data, the product does not contain ingredients that according to REACH Article 57(f) or Commission Delegated Regulation (EU) no. 2017/2100 or Commission Regulation (EU) no. 2018/605 are considered substances with endocrine disrupting properties, in a concentration of 0.1% or more.

Information on effects on health and possible symptoms is given in section 11.

## **SECTION 3: Composition/information on ingredients**

### **3.1. Substances**

Not applicable.

### **3.2. Mixtures**

Name of the substance	Identifier	Conc. (%)	Classification according to regulation 1272/2008/EC (CLP)	Type
Ethanol Ethyl alcohol	CAS no.: 64-17-5 EC no.: 200-578-6 Index no.: 603-002-00-5	<5	Flam. Liq. 2, H225	[2] [5]

The mixture does not contain ingredients that, according to the supplier's current knowledge and concentration of substances, could pose a risk to health or the environment, and there are no PBT and vPvB substances or substances of similar concern, or substances with an occupational exposure limit value, and therefore should be listed in this section.

Abbreviations and explanations of H-phrases are given in section 16.

Occupational exposure limits (if established) are given in section 8.

#### **Types:**

[1] substances hazardous to the environment or health;

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

- [2] substances with an occupational exposure limit value;
- [3] PBT-substances according to (EC) no. 1907/2006, for Annex XIII;
- [4] vPvB substances. according to (EC) no. 1907/2006, for Annex XIII.
- [5] The substance is included in the SEVESO Directive.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

General:	If discomfort is observed, seek medical attention and present this SDS.
Inhalation:	Move victim to fresh air. Seek medical attention immediately.
Skin contact:	Wash contaminated skin with plenty of soap and water. In case of long-term symptoms of irritation, seek immediate medical attention.
Eye contact:	Flush contaminated skin with plenty of water for at least 15 minutes and consult a physician.
Ingestion:	Rinse mouth with water and drink plenty of water. Seek immediate medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

Inhalation:	Long-term inhalation of vapors can cause narcotic effects.
Skin contact:	In case of frequent contact - skin dryness.
Eye contact:	Redness, temporary irritation.
Ingestion:	Bitterness in the mouth, nausea.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes to physician                      Treat symptomatically.

Information on effects on health and possible symptoms is given in section 11.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

Suitable extinguishing media: Use water spray, alcohol-resistant foam, carbon dioxide (CO<sub>2</sub>), or dry powder.

Unsuitable extinguishing media: Do not use a full power water jet.

#### 5.2. Special hazards arising from the substance or mixture

Combustion products may contain the following substances: carbon dioxide, carbon monoxide and unidentified organic and inorganic compounds.

#### 5.3. Advice for firefighters

Protective equipment for firefighters,                      Firefighters should use self-contained breathing apparatus and suitable protective clothing if there is a risk of contact with combustion products.

Special firefighting procedures:                      Use self-contained breathing apparatus, eye protection, fire-resistant antistatic clothing. Tanks with the mixture should be cooled with water spray and immediately moved away from the fire. Do not allow water used for firefighting to enter drains and water bodies.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

- 6.1.1 For non-emergency personnel: Do not involve untrained or at-risk personnel in handling the spill. Keep to the windward side. Evacuate personnel from surrounding areas. Do not allow access to area untrained or personnel without protective equipment. Do not touch or walk through spilled product. Avoid contact with skin. Ensure adequate ventilation. Put on suitable personal protective equipment (protective clothing, gloves and eye/face protection). Eliminate all sources of ignition (no smoking, no torches, sparks or flames in the hazard area). For information on personal protective equipment, see section 8.
- 6.1.2. For emergency responders: Ensure that untrained persons cannot access the hazardous area. If special protective equipment is required to collect spills, refer to Section 8 for suitable and unsuitable materials. Also review information for personnel not involved in emergency response.

### 6.2. Environmental precautions

Do not allow product to enter drains. If the product has caused environmental pollution (sewers, water bodies, soil or air), report to the appropriate government authorities.

### 6.3. Methods and material for containment and cleaning up

In case of a large spill (e.g., in warehouses, etc.) - contain the spilled product with a non-flammable, absorbent material and place in a suitable waste container for disposal in accordance with local legislation. Take to a licensed waste management company for disposal. Flush the spill with water. Use non-sparking work tools.

### 6.4. Reference to other sections

See Section 1 for emergency contact information.  
See section 8 for suitable protective equipment.  
See section 13 for waste management information.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

- Protective measures: Make sure there is sufficient ventilation. Open packages carefully, close tightly after use and store vertically. Handle the product in accordance occupational safety legislation. Put on suitable personal protective equipment (see section 8). Avoid contact with skin and eyes and inhalation of vapors.
- Protective measures against fire and explosion: Take measures against the accumulation of static electricity - ground the equipment. Keep away from sources of ignition - do not smoke. Extinguish all open flames. Move away from the storage area all appliances that can cause sparks. Ensure adequate ventilation when using the product. Before starting work, make sure that the fire extinguishers are in working order.
- Advice on general occupational hygiene: Eating, drinking and smoking are not allowed in the areas of product use, storage and production. Employees must wash their hands and face before eating, drinking and smoking. Remove soiled clothing before entering dining areas. See section 8 for hygiene measures.

### 7.2. Conditions for safe storage, including any incompatibilities

- Storage: Store in accordance with local regulations. Store in a cool, well-ventilated place, protected from direct sunlight. Do not store together with incompatible substances (see section 10), food and beverages. Do not store with flammable materials. Keep the package tightly closed until use. Re-openable packages must be tightly closed and stored vertically to prevent leakage. Do not store in unlabeled packaging. Ensure appropriate safety measures to prevent environmental contamination.

### 7.3. Specific end use(s)

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

Recommendations: For automotive and industrial use.  
For consumer / professional use.

Solutions for manufacturers: Information not available.

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

Occupational Exposure Limits (OEL): Limit values are set throughout the EU, but each Member State sets its own OELs, which often exceed those set by EU legislation (IOELVs). OELs are determined by national competent authorities or other appropriate institutions.

#### EU: Indicative occupational exposure limit values (IOELV):

Name of the substance	Value 8 h exposure		Value short term exposure	
	OEL mg/m <sup>3</sup> (8 h)	OEL ppm (ml/m <sup>3</sup> ) (8 h)	OEL mg/m <sup>3</sup> (15 min)	OEL mg/m <sup>3</sup> (8 h)
No values are given for any of the components.	-	-	-	-

#### Latvia (AER, MK reg. Nr.325):

Name of the substance	Value 8 h exposure		Value short term exposure	
	OEL mg/m <sup>3</sup> (8 h)	OEL ppm (ml/m <sup>3</sup> ) (8 h)	AER mg/m <sup>3</sup> (15 min)	OEL mg/m <sup>3</sup> (8 h)
Ethanol Eethyl alcohol	1000	-	-	-
Synthetic detergents	5	-	-	-

Biological limit values: No limit values are specified for the components.

Recommended monitoring Procedures: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy), as well as national guidance documents for methods for the determination of hazardous substances.

#### 8.2. Exposure controls

Appropriate engineering controls: Use only with adequate ventilation to ensure the concentration of particles in the air below the limit values.

#### Individual protection measures, such as personal protective equipment:

Hygiene measures Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.  
Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

#### Eye/face protection

Tight-fitting goggles with side shields or wide-vision full-face goggles. Do not wear contact lenses while using this product. It is recommended to keep a portable eyewash bottle at the workplace.

#### Skin protection

Hand protection Personal hygiene is a key element of effective hand care. Protective gloves made of butyl rubber, polyvinyl chloride, polyvinyl chloride, nitrile and meeting the requirements of EN 374 are recommended.

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

Body protection	Personal protective equipment must be selected based on the work tasks and the risk assessment of the working environment, approved by the appropriate specialist.
Other	Appropriate protective footwear and any other skin protection must be selected prior to product use based on work tasks and a risk assessment of the work environment, approved by an appropriate specialist.
<b><u>Respiratory protection</u></b>	In case of insufficient ventilation, it is necessary to use a suitable personal respiratory protection device. Do not inhale vapors. Use a mask with a type A filter.
<b><u>Environmental exposure controls</u></b>	Contain and prevent leaks, comply with national emission regulations. All ventilation systems must be filtered before release to the atmosphere.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Physical state	Liquid.
Colour	Green or Red.
Odour	Characteristic (Perfume compositions).
Melting point/freezing point	-2 °C
Boiling point or initial boiling point and boiling range	~100 °C (1013 hPa)
Flammability	The product contains a flammable component in small quantities, but the product itself is not considered to meet the classification criteria for flammable liquids.
Lower and upper explosion limit	Not available.
Flash point	≥ 60 °C (Closed cup).
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
pH	6,5÷8,5
Kinematic viscosity	Not available.
Solubility	The product is soluble in water.
Partition coefficient n-octanol/water (log value)	Not available.
Vapour pressure	Not available.
Density and/or relative density	Not available.
Relative vapour density	Not available.
Particle characteristics	Not available.

#### 9.2. Other information

##### 9.2.1. Information with regard to physical hazard classes

Flammable liquids	The products contain <5% ethanol, classified as a category 2 flammable liquid. There are no test data available for the product, but the information available in literature sources (for example, <a href="https://www.engineeringtoolbox.com">https://www.engineeringtoolbox.com</a> ) shows that the flash point of the ethanol-water mixture, at an ethanol concentration of 5%, is 62 °C. The criteria set out in the CLP regulation state that for a mixture to be classified as a category 3 flammable liquid, it must have a flash point between
-------------------	--

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

23°C and 60 °C. It can therefore be concluded that this product should not be classified as a flammable liquid.

### 9.2.2. Other safety characteristics

Not available.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Can react with acids, acid anhydrides, alkali metals, oxidizing substances.

### 10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

Hazardous reactions will not occur under normal conditions of storage and use.

### 10.4. Conditions to avoid

Heat, sparks, flames, high temperature. Contact with incompatible materials.

### 10.5. Incompatible materials

Strong acids. Strong oxidizing substances.

### 10.6. Hazardous decomposition products

Thermal decomposition or incomplete combustion may produce carbon monoxide, carbon dioxide and irritating fumes.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity:

Information about the product or its ingredients:

Product/substance name	Result	Species	Dose	Exposure
Ethanol Eethyl alcohol	LD50 Oral	rat	10470 mg/kg bw	-
	LC <sub>50</sub> inhalation: vapor	rat	116,9 mg/L air	4 h
	LD <sub>50</sub> Dermal	rabbit	17100 mg/kg bw	-

**Conclusion/Summary:** Based on available data, the classification criteria are not met.

#### Skin corrosion/irritation;

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available.

**Conclusion/Summary:** Based on available data, the classification criteria are not met.

#### Serious eye damage/irritation;

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available.

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Respiratory or skin sensitization:

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Germ cell mutagenicity:

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Carcinogenicity:

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Reproductive toxicity:

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Specific target organ toxicity – single exposure

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Specific target organ toxicity – repeated exposure

Information about the product or its ingredients:

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Aspiration hazard.

Information about the product or its ingredients:

Information on dangerous effects on humans or animals is not available

**Conclusion/Summary: Based on available data, the classification criteria are not met.**

### Information on likely routes of exposure

Inhalation:	Long-term inhalation of vapors can cause narcotic effects.
Contact with the skin:	In case of frequent contact - skin dryness.
Contact with eyes:	May cause redness of the eyes and temporary irritation.

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

Ingestion: Bitterness in the mouth, nausea.

### Symptoms related to the physical, chemical and toxicological characteristics

Inhalation: Narcotic effect.  
Contact with the skin: Dry skin.  
Contact with eyes: May cause redness of the eyes and temporary irritation.  
Ingestion: Bitterness in the mouth, nausea

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### Short-term exposure

Potential immediate effects: Not available.

Potential delayed effects: Not available.

#### Long-term exposure

Potential immediate effects: Not available.

Potential delayed effects: Liver damage.

### 11.2. Information on other hazards

#### 11.2.1. Endocrine disrupting properties

Based on the available data, the product does not contain ingredients that, according to REACH Article 57(f) or Commission Delegated Regulation (EU) no. 2017/2100 or Commission Regulation (EU) no. 2018/605 are considered substances with endocrine disrupting properties, in a concentration of 0.1% or more.

#### 11.2.2. Other information

Not available.

## SECTION 12: Ecological information

### 12.1. Toxicity

Information about the product or its ingredients:

Product/Substance name	Species	Effect	Exposure	Dose
Ethanol Eethyl alcohol	Fish - Oncorhynchus mykiss	LC <sub>50</sub>	24 h	11200 mg/L
	Fish - Leucistus idus melanotus	LC <sub>50</sub>	48 h	8140 mg/L
	Fish - Pimephales promelas	LC <sub>50</sub>	96 h	14,2 g/L
	Crustacea - Daphnia magna	EC <sub>50</sub>	24 h	10800 mg/L
	Crustacea - Daphnia magna	EC <sub>50</sub>	48 h	9268-14221 mg/L
	Alagae - Raphidocelis subcapitata	EC <sub>50</sub>	7 d.	5000 mg/L
	Microorganisms– Pseudomonas putida	IC <sub>50</sub>	16 h	6500 mg/L

**Conclusion/Summary:** Based on available data, the classification criteria are not met.

### 12.2. Persistence and degradability

Information about the product or its ingredients:

Product/Substance name	CAS no.	Degradation	Guideline/ Test method
------------------------	---------	-------------	------------------------

## SAFETY DATA SHEET

Complies with Regulation 1907/2006 of the European Parliament and of the Council (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Windshield fluid GOODYEAR SCREEN WASH -2C

Version: 1

Revision: 13.06.2024

The date of the previous version: -

Ethanol	64-17-5	Easily degradable	-
---------	---------	-------------------	---

**Conclusion/Summary:** Based on available data, the classification criteria are not met.

### 12.3. Bioaccumulative potential

Information about the product or its ingredients:

No data on adverse effects on animals or aquatic plants/animals are available.

### 12.4. Mobility in soil

Information about the product or its ingredients:

No data on adverse effects on animals or aquatic plants/animals are available.

### 12.5. Results of PBT and vPvB assessment

The product does not meet the PBT and vPvB criteria according to Annex XIII of the REACH Regulation (Regulation (EC) No. 1907/2006).

### 12.6. Endocrine disrupting properties

No data on adverse effects on animals or aquatic plants/animals are available.

**Conclusion/Summary:** Based on the available data, the product does not contain ingredients that, according to REACH Article 57(f) or Commission Delegated Regulation (EU) no. 2017/2100 or Commission Regulation (EU) no. 2018/605 are considered substances with endocrine disrupting properties, in a concentration of 0.1% or more.

### 12.7. Other adverse effects

No known significant effects or critical hazards.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

#### Product

**Methods of disposal:** Waste must be disposed of in accordance with the requirements of national, municipal and local regulatory acts in the field of environmental protection. Do not allow spilled material to spread and enter soil, water bodies, drains and sewers.

**Hazardous waste:** According to our current knowledge, the product is not considered hazardous waste according to EC directive no. 2008/98/EC and EU regulation no. 1357/2014.

**European waste catalogue (EWC):** 20 01 30: detergents other than those mentioned in 20 01 29

#### Packaging:

**Methods of disposal:** The generation of waste should be prevented or minimized as much as possible. The packaging to be disposed of is recyclable. May be added to general waste, after thorough cleaning of the packaging. Incineration or disposal in landfills is permitted only if replanting is not available. According to the supplier's current knowledge, the packaging is not considered hazardous waste according to EC directive 91/689/EEC.

**European waste catalogue** Emptied package:  
EWC code:  
Bottle: 20 01 39 Plastics.

## SAFETY DATA SHEET

EN ISO 13688 – " Protective clothing — General requirements";  
EN ISO 20347:2021 "Personal protective equipment — Occupational footwear".

### 15.2. Chemical safety assessment

Not applicable.

## SECTION 16: Other information

### 16.1. Abbreviations and acronyms

REACH: Regulation 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)  
CLP: Classification, Labelling and Packaging Regulation [Regulation (EC) No.1272/2008]  
ADR: The European Agreement concerning the International Carriage of Dangerous Goods by Road  
RID: International Rule for Transport of Dangerous Substances by Railway  
IMDG: International Maritime Code for Dangerous Goods  
IATA: International Air Transport Association  
CAS: Chemical Abstracts Service  
EINECS: European Inventory of Existing Commercial chemical Substances  
LC50: Median lethal concentration  
LD50: Median lethal dose  
REACH: Registration, Evaluation and Authorisation of Chemicals  
PBT: Persistent, bio-accumulative and toxic  
vPvB: Very persistent, very bio-accumulative  
bw: Body weight.

### 16.2. Classification method

Not classified.

### 16.3. Full text of abbreviated H statements [CLP/GHS]

Flam. Liq. 2: Flammable liquids, Hazard Category 2.  
H225 Highly flammable liquid and vapour.

### 16.4. Information sources

ECHA databases.  
Safety data sheets compiled by raw material manufacturers.

### 16.5. Recommendations for training

In addition to health, safety and environmental training programs for employees, companies should ensure that employees read, understand and apply the information and recommendations in the Safety Data Sheets.
